Career Objective

CSE graduate with hands-on experience in full-stack development **(MERN, WordPress, Webflow)** and **AI automation (Gemini-based pipelines, intelligent documentation systems)**, backed by a foundation in **API testing and security**. Seeking a **Software Developer** role to build scalable, automation-driven solutions that solve real business problems.

EDUCATION

Sister Nivedita University, Kolkata **2022 – 2026**
B.Tech in Computer Science and Engineering | ***CGPA**: 7.27/10* *Kolkata, West Bengal*

EXPERIENCE

iB Arts Private Limited **June 2026 – Present**
Graduate Engineer Trainee *onsite*

- Developed and customized company websites in **WordPress/Divi**, delivering responsive, user-friendly layouts.
- Tested **MERN stack** applications for cross-device responsiveness, catching UI and functionality issues pre-release.
- Upskilled in Webflow through hands-on practice, expanding front-end development capabilities for future client projects.

Expm Learning India Private Limited **October 2025 – December 2025**
Software Developer Intern *onsite*

- Built an **automation pipeline** for BigBlueButton, cutting manual documentation effort by **70%** (˜2 hrs/week saved).
- Developed an **AI audio intelligence pipeline** (**Gemini**) for speaker ID and transcript generation, boosting accuracy **35%** and eliminating manual note-taking.
- Added **speech analytics** for automated sentiment analysis and participation tracking, lifting operational insight coverage **50%** with zero manual input.
- Delivered the end-to-end pipeline in 8 weeks in an **Agile** workflow, cross-functional collaboration.

Employability.life **September 2024 – November 2024**
Cybersecurity & API Testing Intern *Remote*

- Troubleshot and resolved RESTful **API** vulnerabilities/failures using **Postman** and **curl**.
- Ran security-focused **API testing** across environments, improving endpoint performance and **SLA** reliability .
- Documented incidents per **SDLC** standards; earned **XPMC (XPro)** certification in cybersecurity and API security testing.

SKILLS SUMMARY

Programming Languages: JavaScript, C, C++
Automation & API: Vapi ai, OpenAI API, Gemini AI, REST API, SOAP API
Web & Frameworks: HTML5, CSS3, jquery, React.js, Node.js, Express.js, Next.js, Electron.js, Three.js, Tailwind Css, TypeScript
Database: SQL, MySQL, MongoDB, PostgreSQL, Supabase
Tools & Cloud: GitHub, Postman, Jira, Replit, VS Code, Jupyter Notebook, Wordpress, Webflow, Bootstrap, Slick Slider, Google Cloud, Firebase
Core CS Concepts: Data Structures and Algorithms, Object Oriented Programming, Operating Systems, Software Engineering, Computer Networks

PROJECTS

Energy-IoT [https://energy-iot.vercel.app/] | Next.js, Supabase, NodeMCU **Aug 2025 – Present**

- Designed and deployed an **automated IoT monitoring system** using **NodeMCU** and **Firebase** with **real-time alerting**, predictive energy analytics, and automated threshold-based notifications – reducing manual monitoring effort by **70%**.
- Built a responsive **operational dashboard** with **Next.js 14**, improving visibility into system performance by **40%** and enabling remote appliance control without manual intervention.
- Implemented **automated alert pipelines** and data analytics to proactively detect anomalies, optimize electricity usage, and minimize operational waste.

XMeetBot [https://xmeetbot.netlify.app/] | Electron, Next.js, WebSockets, OpenAI **Oct 2025 – Mar 2026**

- Engineered a scalable **AI meeting assistant** with a decoupled **Electron/WebSocket** architecture, enabling real-time remote execution via Desktop, Web Apps, and custom Chrome extensions.
- Developed headless browser automation to bypass API limits and integrated **OpenAI pipelines**, achieving **95% accuracy** in automated transcriptions and reducing manual summarization effort by **over 80%**.

CERTIFICATIONS

- **Hackerrank:** REST API, CSS
- **Employability.life:** Cybersecurity – Security Testing of a Vulnerable API
- **IBM:** Introduction to Data Analytics, People and Soft Skills for Professional Success
- **University of Colorado Boulder:** The Structured Query Language (SQL)
